MERCER'S SEEDS GROW
Better and Beller,

FLORAL DISPLAY

Farmers' Annual Fair, Larimore, North Dakota, September 22-23, 1922.

A wonderful Floral Exhibition staged at the Farmers' Annual Fair held in Larimore, North Dakota, September 22 and 24, 1922. The Floral exhibit represents flowers grown from Mercer's HOME GROWN SEED.

The ladies in the picture are praising Mercer's HOME GROWN SEED. The flowers in the picture were mostly grown from seed raised right here at home. Most flower seed distributed through seed men who send out lithograph seed bags, is grown in California and is not the best for this climate. North Dakota ripens, Pensy, Larkspur, Zinna, Hollyhock, Cornflower, Snapdragon, Verbena, Petuna, Marigould Phlox, Sweet Peas and many other variations of beautiful colors. Have you heard about Mercer's new Golden Giant sweet corn? It is the earliest, sweetest and largest sweet corn in cultivation. It is the king of the table and silo.
General price of flower seed 10 cents per packet.

S. F. MERCER, Larimore, N. D.

Grower of Vegetable and Flower Seed.
